GRESHAM HOUSE

Summer 1982

Murfreesboro, Tennessee 37130

THE GRESHAM HOUSE

When Capt. Asa Gresham joined the 18th Tennessee Infantry CSA little did he realize that his comfortable home would become the most famous house on the Stones River Battlefield. He also would not have believed that two years later it would again, in December 1864, become a part of the history of the War Between the States.

Capt. Greshams' home was built by Nimrod Jenkins, Mrs. Greshams first husband. Nimrod Jenkins brother Hiram built on the same large tract of land (1920 acres) owned by their father Aaron Jenkins. Hiram's house being about a quarter of a mile west of Nimrod's. Both houses were constructed of log and later they were covered and enlarged with clap board siding. The similarity of the two homes has sometimes confused people studying the Battle of Stones River. Hiram Jenkins house is still being lived in although Interstate 24 now crosses the front yard and passes between the two original sights. The Nimrod Jenkins or Gresham house was torn down in 1950.

The military history of the Gresham house can be traced through the official records of the War of the Rebellion in both federal and confederate reports. It is unusual for a house that was used as a battlefield hospital to have so many reports referring to it. All the area military maps show its location. I will not go into the details of its part in the Battle of Stones River nor of its part in the Battle of the Cedars on the 7th of December 1864. These details can readily be found in any good book written on the battles.

Both of these homes were bought by the Ragland family in the 1930's and the pictures and house site plat were made in 1940 for insurance purposes. In 1948 both farms were sold to the Martindale family. The Gresham farm and house site is owned today by the Lane family. The house was located on the (Wilkinson) Manson turnpike and the Southeast corner of the old Gresham Lane, that is now closed.

DEDICATION

to

Dr. Homer Pittard

When Shakespeare had Malvolia challenge Fabian in Twelfth Night to be what he willed to be a pattern was set for all those who achieve greatness through courageous determination. Dr. Homer Pittard is a notable example of Rutherford countians who were neither born great or had greatness thrust upon them - - but achieve greatness through intellectual ability and prodigious labor.

This remarkably gentle man of gigantic frame may be best remembered for his contributions to the painstaking pursuit of historic minutiae in education and religion. These activities, along with the organization of the Rutherford County Historical Society in November 1971, his decade of work as County Historian, a member of the Rutherford County Historical Commission, an ardent developer of Cannonsburg, his authorship of two books and numerous publications, make the dedication of this volume of RCHS Publications percularily fitting and apt.

From the relatively obscure Trimble Community in northeast Rutherford County emerged this versatile individual who was to have such marked recognition as an educator, historian, author, lay religious leader and community servant. He came to know and be known by his contemporaries in each of these areas. It was fittingly said he was "qualitatively involved in so much."

As an educator, Homer first gained reputation for his ability to

combine stern discipline with a sympathetic comprehension of the children of the McFadden Community. As principal of the Murfreesboro Central High School he introduced such sound administration and perception for growth requirements that Central's athletic prowess and academic excellence became regionally recognized.

While at Central he found opportunity at nights, on weekends and in the summer to complete his Doctor of Philosophy at Peabody College with unusual distinction.

In 1955, twenty years after exhibiting the paradoxical ability to both captain the undefeated football team and edit the Midlander, Dr. Pittard returned to his Alma Mater to teach.

Dr. Pittard's numerous contributions to the enhancement of Middle Tennessee State University were most notable in the department of Education and later when he served as alumni and campus relations director. He organized MTSU alumni clubs from Miami to Washington, D.C. He was promoter of the MTSU Foundation, counselor of the Midlander, editor of the MIDSTATER and author of Fifty Golden Years, the story of the first half century of the school. He was a representative on the Southern Association of Schools and served as chairman of many Association evaluating committees.

His dedication to Christian living and his First Baptist Church affiliation offered opportunity to serve as deacon, teacher and Sunday School superintendent. The Pillar and Ground was a lofty labor of love depicting with historical candor the story of his congregation.

As a chairman of the Rutherford County School Board, as past president of the Murfreesboro Rotary Club, trustee of the Sam Davis Home, and work

with the Oaklands Mansion Men's Board he gave generously of his forceful personality to build the community.

The college romance of Homer Pittard and Mable Baxter of Lawrenceburg culminated in a beautiful and lasting marriage. To their son, John, a member of the Murfreesboro City Council, and their daughter, Ann, they transmit a challenging heritage.

Dr. Homer Pittard was a modest, sensitive, compassionate man. In his varied writings he disdained hyperbole while demonstrating and entertaining, accurate and informative style.

A man of steadfast dignity, tireless devotion, unusual talent he was a delightful conversationalist, a trusted advisor and confidant.

Certainly the passing of this one diminishes us all.

In recognizing his accomplishments as a historian, in education, religion and as public servant the Rutherford County Historical Society dedicates this Publication No. 19 to his memory.

To the north of the present Smyrna railroad depot by horse and buggy, about a mile on the now unused dirt road that led to the Jefferson Pike, the old Gooch and Nelson homes, in the vicinity of where the Hart's Branch empties into the Stewart's Creek, stood an early Presbyterian Church by the name of Smyrna. The name Smyrna was derived from a biblical church in Asia Minor mentioned by the Apostles in their writings in the Bible records.

The families that worshipped here, populated the rich bottom lands along the Stewart's Creek and Stones River and were first and second generations of the early settlers.

To the south of Smyrna on the Nashville-Murfreesboro stage road or toll pike was a community known as Stewartsboro. This consisted of stage stop, post office, blacksmith shops, merchants, etc. Olive Grove M.E. Church was in this vicinity.

By the 1850's the Nashville or Mid-Tennessee area was producing many products-cotton, livestock, wheat, wool, corn and etc. Having no market except by wagon or boat to New Orleans, the area conceived and built the railroad to get these products to Chattanooga where an existing railroad would take them to Charleston, S.C. and the world markets, by ship. Cotton went to the mills in England and came back as cloth and cotton products.

As the railroad was being completed 1851-1855, it was decided to have a station between these two communities. Mr. John F. Tucker and brother Silas Tucker, who owned the land where the present depot is located were given the privilege of naming the station. They being devout Presbyterians, and members of this early church, chose the name Smyrna.

In 1855 the railroad company bought a track of land on the east side of the railroad tracks, adjacent to the depot which was subdivided, laid off in lots and streets. These lots were soon sold thus forming the town of Smyrna.

AUCTION SALE OF LOTS!

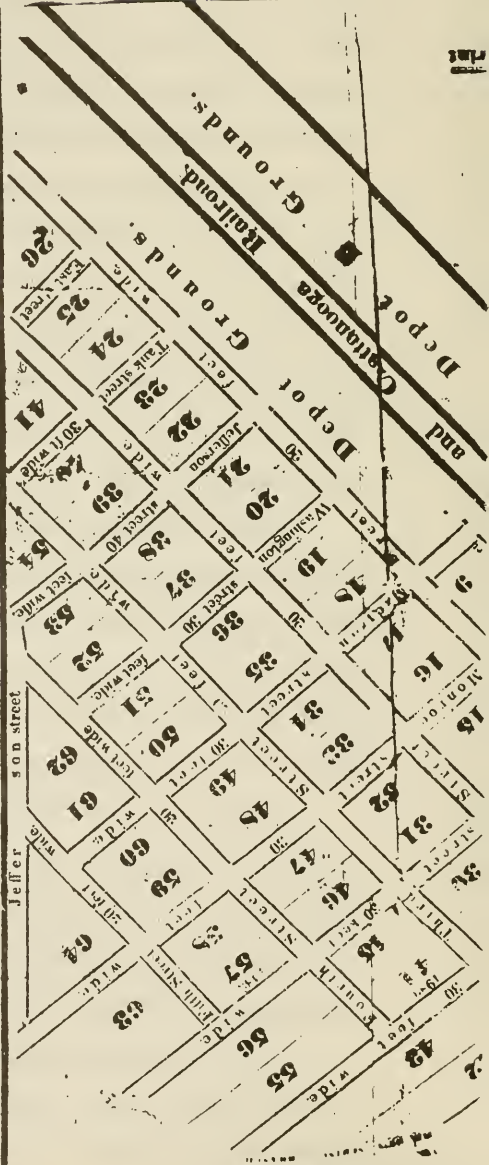

AT SMYRNA DEPOT, ON THE N. & CHATTANOOGA R. R.

On SATURDAY, the 28th inst., the sale of Lots in the plan below will take place. Smyrna Depot is situated 10 miles from Nashville and 10 miles from Murfreesboro', and is a beautiful location for a town, in a very rich and fertile neighborhood, which is already thickly inhabited and the surrounding farms in a high state of cultivation. There is not a more eligible point on the Railroad from Nashville to Chattanooga, for a pleasant and retired residence. Those wishing a handsome and desirable village location, free from the noise of a city, should examine the place before the day of sale.

Terms made known on the day of sale.

(April 7, 1855.)

A. G. HENDERSON, Agent.

In a few years came the smoke, fire and destruction of the Civil War. Most of the plans and hopes for Smyrna were swept away in the five years of conflict over, in, and around Smyrna, and the new railroad.

Yet just four years after this ordeal of war, and amid the union domination of the Tennessee legislature, and the destitute conditions, Smyrna asked for, and acquired a Charter of Incorporation in 1869.

I have discovered that in 1869-71, Mr. Joseph R. Dillin, a unionist, was a representative from Rutherford County in the House of Legislature. Mr. Dillin had a new home completed in 1865-67 known today as the old Tucker house on Oak Street in Smyrna. This house was not in the Smyrna Corporation limits. The Brainard Cheneys live there today. The house is a beautiful two story brick of that period. Joseph had a brother who ran a general merchandise store on lot number 20, 1855 map. Joseph was a lawyer and the family was apparently quite wealthy.

The Dillin family left Smyrna soon after the Civil War.

The Senator from Rutherford County 1869-71 was Mr. William Spence. Don't know where he lived. I wonder how these people related to the new Charter of Incorporation.

By word of mouth I had been informed that Mr. Joseph Engles had been the first Mayor of Smyrna, 1869. By evidence of record I knew his son Dr. J. W. Engles to be the first mayor of Smyrna under a new and different Charter of Incorporation in 1915.

Let me relate to you the circumstances that brought the following evidence to my attention. Evidence that shows the Engles family took care to preserve the record book of the 1869 to 1881 City of Smyrna records, only to come back to light be sheer circumstance.

This book itself, evidently was left in Smyrna by some officer of the Union Army during the Civil War. It is a large ledger type book seventeen and one half inches tall, eleven and one half inches wide(when closed), leather bound, quite shaken or loose, worm eaten, and dirty, yet the contents are still legible.

This page is one of the many unused pages from the 1869 to 1881 minute book of the Town of Smyrna, Tenn.

(See insert of one of the pages). So four years after the war when Smyrna needed the then scarce item of paper material to record the incorporation, and continuing minutes and records, some one came up with this Civil War record book. It proved to be an excellent choice.

Never in my memory, or in any records have I discovered any mention of these records, until in 1968-69 when the Tennessee State Highway Department was purchasing right-of-way for Interstate I-24, in the vicinity of Almadale Road, Will Neely and wife Ella(Engles) Neely, living on a farm in that vicinity, were forced to sell and evacuate. Ella was the daughter of our first Mayor Dr. J. W. Engles of 1915 Incorporation, and, he the son of Joseph Engles first mayor of 1869 Incorporation. Dr. Engles lived with this daughter Ella in his latter years, having died several years ago.

This Neely-Engles house was located on a knob directly in the northeast quadrant of the I-24 Almadale Road Interchange.

Two neighbors, brothers Ellis and Mitchell McGowan, tore down this Neely house and moved everything remaining off the property. Evidently this book was part of the remains.

The McGowan brothers being of an early family and still maintaining an old home place nearby took much of the material there. Their home was across the branch from the early Brown and later Isam Peebles home. Ellis having married and living in a new house near by, Mitchell a bachelor remained at the old home. Mitchell died in 1970, February 28, after which the McGowan house was not used for a dwelling. Sometime there after several boys prowling through the old house came upon this old book and secretly brought it to Smyrna where they lived. Ellis McGowan living nearby, discovered the break-in and made some attempt to discover who. I am not aware of what else may have been taken, if any.

The boys not wanting to be discovered, secreted the book, but discovering the content could not keep quiet. On several occasions one of the boys came to me, knowing my great interest in Smyrna history, in a feeble attempt to learn of its value, or to sell it to me.

I never saw the book or knew of its content and for many months, it disappeared again. Eventually the book was placed in the public library at Smyrna, where I got my first look at it.

An important piece of evidence of Smyrna history, it is now secured in the Smyrna Room of the library, microfilmed, pages laminated and available for research.

This story is interesting evidence of where this book has been for about one hundred years and how it came to where it is today.

The following is copied from the Acts of the Tennessee Legislature of 1869. Dewit C. Senter, a conservative Republican was governor.

Passed December 10, 1869

So that the readers may orientate themselves to the life styles of these times, I offer these thoughts.

These citizens of Smyrna had no telephone, no bathrooms, no automobiles, airplanes or television, no side walks or paved streets.

They had few neighbors, few schools or churches, few fine clothing or shoes. Hard work and small pay. Many daily domestic chores to maintain comfort and survival.

The woods and the fields were intimate, church was the center of social life. Entertainment consisted of a school box-supper, a traveling show, a Sunday buggy drive to grandmothers or a visit to a neighbor.

Good books, sewing or needle work, a vegetable garden and canning food, wood cutting, feeding the livestock, drawing water, making fires, hogkilling, and harvesting kept them busy. All this is done today be modern energy and machines.

1880.

At an annual election held in the Town of Smyrna in accordance with a writ of election issued by R. Ransom, Sheriff of Rutherford County on this the 20th day of December 1880 for the purpose of electing one mayor and five aldermen to serve for the ensuing term of twelve months. The certificates of the offices of said election show that A. W. Page was elected mayor and W. B. Jarrett, S. E. Hager, J. R. Britt, J. L. Brewer and J. F. Tucker were elected aldermen. And upon said returns the sheriff issued certificates of election to the officers elect, which certificates are now on file in this office, January 4, 1881.

A. W. Page, Mayor and Recorder

January 4,
1881.

The Board of Mayor and Aldermen met at the usual time. Mayor Page called the board to order and administered the oath of office to all the aldermen elect. The oath of office having the same day

The business was taken up in regular order and J. W. Hight was elected town constable. W. B. Jarrett was elected treasurer. E. W. Jarrell and J. M. Hight was elected policeman. The treasurer was instructed to pay to the parties who had paid a corporation fine of ? dollars, the sum thus settled by them.

The following rate of taxes was voted and ordered levied for corporation purposes for the present year. Merchants license-\$2.50, whiskey-\$100.00, peddlers-\$2.50, shows-\$2.50, stables-\$2.50, shooting galleries-\$2.50, wagons, drays, carts, and other vehicles-.50¢, poll tax-\$1.00.

And upon all personal property(not exempt) and upon all realty 1/5 of one percent. Aldermen Britt, Brewer and Tucker were appointed street committee. The mayor was allowed 25¢ for each license issued. No other business appearing for the good of the corporation the board adjourned to meet again on the first Tuesday night in February next, unless sooner called together by the mayor.

A. W. Page, Mayor and Recorder

January 6,
1881.

At a called meeting of the Board of Mayor and Aldermen all the aldermen being present the mayor stated the object of the meeting was to take action on the whiskey license levied on the 4th inst. Whereupon on motion and seconded the board voted to recend its action in levying said tax on one hundred dollars for license to sell the same. This action of the board, the mayor vetoed stating his reasons for this action. Wherefore, upon a vote the same was passed over the veto and the mayor was by vote of the board directed to return to J. R. Britt the one hundred dollars collected by him for said license. No other business appearing the board adjourned to meet again on the first Tuesday night in February next unless sooner called by order of the mayor.

A. W. Page, Mayor and Recorder

Note.

This called meeting is evidence of conflict between the mayor and city officials.

Note.

Here ends the 1869-1881 records copied above from record book.

Albert W. Page was married to Sallie B. Hight February 4, 1874 by the Rev. Mr. Rosser at the Smyrna Methodist Church. This church was built in 1872. There was no Church of Christ until 1880.

Note by W. K.
Hoover.

Mr. A. W. Page a highly religious person possibly was disappointed in his inability to control whiskey and the two saloons in Smyrna, eventually causing the charter of incorporation to be lost. Mr. Page and the Hight family, one of the Hight girls

being his wife, founded the Church of Christ on Division Street about this time.

The only evidence that I find about why the charter was lost or withdrawn is the following petition and a note in Mr. Page's diary.

1881.

From Tennessee House Journal 1881(Tennessee State Archives)
By Mr. W. R. Jones, a petition from the citizens of Smyrna protesting against the repeal of the charter of said town.

Referred to the Committee on Incorporation.

To the Honorable Speaker and Members of the House of Representatives of the General Assembly of the State of Tennessee in session at the Capitol. We the undersigned boni fide citizens of the Town of Smyrna, Rutherford County would respectfully represent to your honorable body that upon information had by us that during your session there will be presented to you for your consideration a petition from a few of our fellow citizens praying you to repeal so much of the Acts of 1869 etc. As refers to the incorporation of our now thriving little Town to which petition we beg leave to enter our earnest protest and will endeavor to show by the following reasons why their prayer should not be heard. 1st. The petition is signed by two non-residents of the corporation the others are simply a respectable minority and with but few exceptions are newcomers failing to realize the maxim vena vidi visi(note-"I came, I saw, I conquered") they prepose to rub out and take a fresh start. 2. The petition does not show in its face the intentional objects for which it was made-i.e.(Note-"idest" that is). 1st, that is the wish of a few parties living some miles away that our new citizens may propetiate securely that these same citizens may have the consolations that they will thereby avoid the payment of privilege renews which all well regulated corporation as ours impose upon all, who do legitimate business within their jurisdiction. 3. It will be urged by the friends of said petition that aside from their prayer they will demand of you as a matter of duty and right that you repeal our charter upon constitutional grounds the numerical populations having been reduced below the figure required by law.

In answer to this charge we would respectfully show your honorable body that by the passage of wholesome laws and the execution of them the town has accomplished a wonderful change since it became an incorporated town. Our worst enemies will admit that when our charter was granted our village was in a sad condition but as soon as the corporate authority could be organized a happy change was perceptible. We are out of debt and improvements are going forward as fast as the nature of the case will admit.

Respectfully submitted

This petition is hand written. The signatures are by the same hand writing and same pen.

I suspect that Joseph Engles wrote this in conjunction with W. R. Britt, the saloon keeper, perhaps others not wanting to pay privilege taxes. The above minutes show that A. W. Page, Mayor wanted to tax Mr. Britt one hundred dollars per year for his saloon.

I did not find a petition by other citizens to do away with the charter. However, I did find a mention of this in Mr. A. W. Page's diary to-witt.

January 25, 1881. "I went to Nashville on the 9:00 a.m. and came back on the 4:00 p.m. train. While in N. I was at the Capitol and before a legislative committee and testified before them why we wanted to abolish the corporation of Smyrna and am almost certain it will be done."

Same Day. "I am still very much dissatisfied with our present situation and will change it the first opportunity."

Note by W. K. Hoover. Mr. Page moved to Texas soon after this. The reconstruction period after the Civil War created many social and economic problems.

Page Diary. The following quotations from Mr. A. W. Page's diary will enhance your knowledge of Smyrna history.

Wednesday, May 15, 1878. "At night I went up to Jarretts Store(meeting place) called the aldermen elect together and administered the oath of office to them. After electing J. W. Hight town constable and J. T. Brewer and J. W. Lenoir policemen we adjourned,(cool and clear)".

September 21, 1878. (A Saturday) "Was at a meeting of the Board of Mayor and Aldermen at night, at which quite a number of bills were passed for the benefit of the corporation. Got home at nine thirty o'clock. Cloudy, then clear and pleasant."

Friday, February 21, 1879. "I think that A. Davis has traded Jo. Engles a track of land for his Smyrna property. I hope he has and that Engles will move out of Smyrna at once." (Perhaps where the minute book was found.)

"G. S. Ridley was down and he and I went out and looked at the former mud hole and corporate lines and etc." (in streets).

Hight and I went to the creek and took a bath in the evening. We got caught in a shower of rain while gone."

Monday,

"There was a meeting of the Board of Mayor and Aldermen of Smyrna. I got a statement from Capt. Fowler, find that the cost in the case of the State vs. the Corporation is \$25.34."

Monday,
August 4,
1879.

"In company with J. M. Hight and J. W. Hager I went to Murfreesboro in a spring wagon and was up there nearly all day. The Criminal Court was in session and I went up to prosecute R. H. White for buying witness fees, he having reported the corporation authorities of Smyrna for having a mud hole in the road in December last. I do this to get even with him. Got home at 6 o'clock."

1881.

"Was about Smyrna all day-transacted no official business but wrote on my corporation book for about two hours. The weather is very bad-rain last night then snow and there is about two or three inches on the ground."

Saturday,
March 5,
1881.

"There was several drunken men here today but no fighting. We will soon get rid of whiskey here as the charter of this town has been repealed and a school house chartered." (Note-this school was the center section of the Webster house still standing across the street from Church of Christ.)

Monday,

"I was deputized to collect the unpaid taxes."

Wednesday,
April 13,
1881.

"Before leaving Smyrna this morning, the calaboose was sold and the treasurer of the Town of Smyrna, W. B. Jarrett was instructed to pay the proceeds out on the fine and cost in the case of the State vs. Corporation of Smyrna." (Note-by W. K. Hoover. To this day, to the best of my knowledge this log calaboose is still contained in the Will Ross house at the corner of First Street, on 1855 map, lot number 26, page 2.)

Monday,
May 16,
1881.

"I also collected \$7.00 due me by the Corporation of Smyrna, amount paid to criminal court in the mud hole case." A note by W. K. Hoover. Look on page 9-1878 map. See lake near depot. This lake originally extended under the buildings on the west side of Front Street. When Smyrna excavated along this street to install water mains the ditching equipment was stopped about three or four feet deep by railroad cross ties, placed solid together to hold up the roadway. They had to be chopped into to install the water pipes in 1936.

I have seen boys fishing from a crosstie raft in summer and party's skating on ice in the winter. This lake was drained and filled with cinders by the railroad about 1920.

Thursday,
June 9,
1881.

"I am making arrangements to leave for Texas within the next two weeks but I find it a difficult matter to collect any money due me now."

June 13,15,
16,17

He writes of his preparations to leave for Texas. "While in Nashville on the 18th, I bought our railroad tickets to Dallas, Texas. Paid \$42.65 for two and one half tickets." (End of diary quotations.)

Mr. Page's diary continues on for many years but this ends his connections with the office of Mayor of Smyrna. He came back to Smyrna after several years in Palerm, Texas. He later moved to Lebanon, Tennessee where he worked and died.

Mr. Page's diary spans many years before and after he came to Smyrna.

There are many details of history, name of people and happenings in and around Smyrna, noted in this important diary. A photo-copy of Mr. Page's years in Smyrna from his diary is presently in Thurman Francis, Jr. High School Library along with Walter K. Hoover's historical files and is available for research there. (Not available to check out.) The complete original diary is at Vanderbilt University, Nashville, Tennessee. This was taken from page family records, by Ellen Swink.

A. W. Page was a very devout Christian attending Sunday School each Sunday and Church if there was a service in the community. Around 1870 Page, Bill Dunnaway, Bill Gooch, Levi White and Miss Cora Holloway went to West Tennessee to hear Alexander Campbell preach. An invitation was extended Campbell to come to Smyrna and preach at a meeting. Campbell accepted and the meeting was held at the Page home. Page led the singing for this meeting which he followed by becoming song leader. With a new congregation and no meeting house they met in the Page home. Ann Eliza Page furnished the unleavened bread for the weekly observance of the Lord's Super until her death.

In 1872 he ventured into a new field...politics. Was elected magistrate for his district. On April 1, 1878 was appointed a delegate to the convention in Nashville to nominate Supreme Court Judges. Was also elected tax accessor for his district.

On the 6th of April, 1878 was elected Mayor of Smyrna without opposition. This position he held until the charter was rendered in 1881. Page didn't approve of drinking and his actions led to the discontent which caused the charter to be rendered.

Note by W. K. Hoover.

It is now only sixteen years since the cessation, of the turmoil, of the Civil War, which happened on and through this vicinity. The despised federal domination and the reconstruction period was just beginning to relax. Money, business, livestock, labor (slaves) and the old southern plantation life style had gone. Federal taxes were a burden. These things had their effect on the loss of the Charter.

The pleasure of your company is respectfully solicited at a Picnic to be given in Buchanan's Grove, 7 miles west of Murfreesboro, near the terminus of the Wilkinson Cross Roads Pike, on Thursday, August 10, 1876.

Time and the elements have erased all trace of the physical footprints made by these many citizens of yesterday. Perhaps some of these prints remain under the pavements that preserve them. The citizens of Smyrna today do not make footprints in the mud and dust, they move about in gas guzzlers on paved streets while the concrete farmers use pick-up trucks.

Life becomes more complex with each generation and more people to generate. Economics and science increasingly project us into a deminishing world and into the castness of space, beyond this small sphere.

As you travel across the parade grounds of your life, you will inevitably leave prints and impressions that others will study and follow. By what still water will you lead them to their tomorrows? What are your hopes and aspirations for your siblings?

VETERANS ADMINISTRATION MEDICAL CENTER

by - Gene H. Sloan

"I recall being in the circulation office of the Nashville Banner in Murfreesboro, located in the rear of a restaurant on the corner of Maple and College Streets across from the Haynes Hotel (present location of J. C. Penney), when the factory whistles began to blow," writes Mark Womack. Womack is an executive of the N.C. and St. L. Railroad. He was describing the excitement that occurred when the official announcement came that a hospital for veterans would be erected five miles north of Murfreesboro on the Lebanon Road.

Womack remarks on the ironic paradox that tragedy and pathos of World War I would result in such local jubilation. "But it was a shot in the arm of our people as they struggled to escape the sluggish recovery from The Great Depression," he concludes.

Carefully guarded negotiations between government agents and the Batey, Carnahan, McCrary, Posey, Smith and Sullivan families in 1936-37 had resulted in the government acquiring 451 fertile acres situated between the Lebanon Pike and Stones River. Those families had, over the years, acquired fee in lands that the James Rucker family had secured from General Isaac Shelby, hero of King's Mountain. It was an historical site. "In 1804, the first session of the Rutherford County Court met, according to the Legislative Act, at the Thomas Rucker home, near where the Veterans Hospital now stands," states Sims History of Rutherford County, p. 24. The James Rucker grave is located on the present Medical Center grounds. Late in 1862, the Cavalry Command of 26-year old General Joseph Wheeler used these acres for a rendezvous prior to the two-day sweep around the Federal Army with destruction of Union wagon trains at LaVergne.

Construction of the original fifteen buildings of Georgian architectural design began in 1938. The facade of the Administration Building is an exact reproduction of the Hermitage, home of Andrew Jackson.

The Medical Center opened January 1, 1940, with a bed capacity of 600, which was gradually increased to a peak of 1510 in August 1968. The Veterans Administration Regional Office opened January 1, 1940, and remained with the Medical Center until it was moved to Nashville on January 1, 1946.

Mark Womack was a youthful employee of the N. C. & St. L. Railway in 1940. His record reveals that the special train bearing the first patients from a Johnson City facility arrived by special train. He states, "The

train came from the south from Chattanooga where it had arrived over the Southern Railway. J. W. Tucker, Assistant Superintendent of the N. C. & St. L. Special Number 7 accompanied the train as it arrived from the South. I remember the locomotive pulling the train was a 4-82-2, known to railroaders as 'The Mountain Type.' Some of the patients being transferred from the passenger cars were litter borne."

Since that January 1940 opening date, an outpatient clinic was started in 1968. This clinic currently averages about 26,400 visits each year. The average number of hospital patients admitted yearly from the past few years has been around 2,100. Many additional buildings and services have been added over these four decades. The hospital at present has 315 psychiatric, 235 intermediate and 48 nursing home care beds.

The staff, of approximately 1020, comprises a complete team of physicians, dentists, nurses, with a full range of auxiliaries of psychologists, physical therapists, dietitians, pharmacists, occupational therapists, medical laboratory technicians, radiology technicians, ward and administrative personnel. The staff is augmented by trainees, consultants, and some 300 volunteer workers from civic clubs, religious and fraternal societies of the area. The Murfreesboro Veterans Administration Medical Center has an annual payroll of above \$21,000,000.

The hospital employs the most modern equipment and methods of diagnosis and treatment of patients. Included in these facilities is electroencephalograph, drug therapy and psychotherapy. In addition, the hospital conducts specialized medical programs. Among these are speech pathology, intensive care, respiratory care, nuclear medicine and alcohol rehabilitation. There is also a Pulmonary Function Laboratory, Mental Hygiene Clinic and a 38-bed long term stroke rehabilitation unit.

Sam Jared, Jr., was administrator and medical center director for the hospital from December 12, 1939 until August 31, 1962. During this long tenure additional buildings were constructed and an unusually fine rapport was established with the community. He was succeeded by Dr. Alexander Harvey who served from September 30, 1962 until January 6, 1968. Dr. John T. Mason became director on January 7, 1968 and was retired in October 1978. Robert S. Pepiot has served since October 15, 1978.

A canteen and a credit union are available to employees. Employee Association members have access to a swimming pool and golf course when they are not in use by patients. They also have access to the lake twice each year.

Joyce M. Barrett finished 30 years as a nurse at the hospital on December 31, 1981. On September 2, 1982 Juanelle G. Neely will receive 30 years of service recognition. Alvina P. Primm and Louise M. Moss each have 25 years of work with the nursing service. Clifton Frazier will complete his 25th year in October 1982, and Mollie Young and Patricia Jernigan have each completed two decades of service.

Dr. Richard L. Harris was the first chief medical officer when the hospital opened in 1940. Only four medical doctors now on the staff have been there ten years or more. They are Dr. James T. Allen, Dr. Booker T. Crombie, Dr. Horace E. Lucarno and Dr. James W. Tenpenny. Dr. Walter P. Pegram has been on the dental staff since November 2, 1964.

Many Rutherford County organizations work with the patients in the annual Halloween carnival, on the bowling lanes, in horse shows, softball games, fishing in the lake, and other recreational and social activities. There are regular religious services in which local groups participate, aided by the hospital chaplains.

Volunteers in 17 departments are considered the same as employees. The only difference is that they do not receive any compensation for their work and cannot replace a paid employee. They simply enhance and supplement patient care. Volunteer needs are constantly changing and include many patient contact assignments as well as office assistance assignments.

Listed as recipients of certificates during 1981 for cooperation in volunteer activities were American Legion and Auxiliary, American Red Cross, Elks Club, Daughters of the American Revolution, Disabled American Veterans and Auxiliary, General Federation of Women's Clubs, Military Order of the Cootie and Auxiliary, U. S. Catholic Conference, Salvation Army, Veterans of Foreign Wars and Auxiliary, Order of Eastern Star, American Federation of Musicians, Business and Professional Women, Middle Tennessee State University, Daughters of the Confederacy, Lions Club, Moose Club and Auxiliary, Aide Society, East Main Street Church of Christ, Rutherford County Home Demonstration Clubs, Lock's Memorial United Methodist Church, Kiwanis Club, Murfreesboro Women's Bowling Association, Newcomers Club, New Hope Church of Christ, North Boulevard Church of Christ, Trinity United Methodist Church, Smyrna Home Demonstration Club, Oakland High School and the Al Menah Temple Shriners.

On January 1, 1982 there were 52 volunteer workers with more than 10 years contribution. Among these were Annie Fulton with 36 years, Cora King with 35 years, Dorothy Conditt with 33 years, Catherine Alspach with 31 years, Anita Heflin with 31 years and Benidee White with 30 years. Volunteer workers with more than 20 years creditable service include Estelle Beggs, Annie Black, Jack Gandy, Mrs. Mahlon Garber, Margaret Hayes, May Hendris, Florence Hunter, Lillian Johnson, Bertrum Layne, Patsy Layne, Hattie McKinney, Ethel Smith and Virginia Willeford.

The Rutherford County Historical Society acknowledges with deep appreciation the research of Spencer Dixon, Chief of Voluntary Service, in compiling much of the information contained in this article.

THE MANSON FAMILY

by - Rosalind Manson James

For the benefit of posterity I am putting down in writing what I have heard; what I have read; what I have learned from research in various areas; what I know from my years of living; and possibly what I have imagined about my father's family. - - - The Mansons. There is much information here and some mis-information, no doubt, and there are many gaps to be filled in so I leave it to future generations to complete. Try it. It's fun after you get started!

Our first immigrant ancestor to this country by the name of Manson came from England into St. Charles Parish, York County, Virginia about 1680. He was married twice - - first to Miss Somarin by whom he had a child Otis (born Nov. 1, 1690 and died Dec. 9, 1690). He later married Elizabeth (name unknown) by whom he had eight children, five sons and three daughters;

1. Peter, Jr. (born Aug. 25, 1697)
2. Anne (born June 4, 1699)
3. Elizabeth (born April 3, 1710 - married Monroe or Merriwether Shelton-Gillivan, no issue)
4. John (born Feb. 14, 1702 - married Martha Lewis, a widow, moved to Dinwiddie County, Va about 1730)
5. James (born Jan. 13, 1704)
6. Frances (born July 28, 1707 - died Dec. 25, 1707)
7. Nathaniel (born April 10, 1710)
8. Walter (born Dec. 8, 1713)

Peter Manson was rather prominent and owned property in Virginia from the time of his arrival in America, but this documentation I do not have. My information has come from Mr. Lawrence Gardiner, 1832 Cowden Avenue, Memphis, Tenn. who is related to us through the Manson-Hardaway line and who has done quite a bit of research on this line. He is writing a book

on the Hardaways and is including a chapter on the Mansons. The two families intermarried in Dinwiddie and Brunswick County, Virginia where they had moved after the Revolutionary War.

4. James Edward Manson, M. D., born June 30, 1824, Brunswick Co., Va., died Jan 6, 1888 in Rutherford County, Tenn. married Anne Eliza Crockett June 30, 1844. She was born Jan . 6, 1825, Rutherford Co, died Mar 6, 1880 in Rutherford Co., Tenn.
5. Joseph J. Manson born 1826, married Martha Anne White
6. Agnes Manson married James Owen

Edward Manson died in Brunswick Co. where he spent his entire life, but his wife Nancy Maclin came to Tenn. with her two married daughters-Martha and Lucy, and her two younger sons-James Edward and Joseph. She purchased land at Nolensville, Williamson Co., Tenn. In deed book "P", page 221, we saw registered where Nancy Manson bought 128 acres for \$900.00 on Mill Creek. This is dated Nov. 19, 1838. Also, in 1842 she bought slaves. She also sold four acres. Witnesses to the first transaction were J. E. Manson, Benjamin L. Organ, (?), Prince, James Shownum. First deed Book "Q", page 576, shows that on May 4, 1842 she bought 3 Negro slaves-Ned, aged two years, Mary aged three, and Louisa, aged 25, and paid \$100.00 for them.

Edward Manson's Will of the Probate records of Brunswick Co., Va. shows the inventory on Edward Manson, dec, recorded Feb. 1833. He had a large estate for that period with the personality totalling \$5,317.75 and his largest holdings in real estate. Evidently his wife Nancy W. left

with her children for Tennessee and first went to Williamson Co. where she bought the 128 acres in 1838. She may have lived there the rest of her life, I am not sure. I find only the marriage of one of her children there, - the second marriage of the daughter, Martha J. Manson Mason and John H. Neal on Aug. 30, 1837. By 1857 I find Benjamin S. Orgain witnessing deeds for James Edward Manson in Rutherford Co. So it is possible that the Orgains moved to that county also.

NOTE: Williamson County adjoins Rutherford County and the line may have been moved. Dr. Manson's property is near the line.

Dr. James Edward Manson, born June 29, 1823, Brunswick Co. died Jan 6, 1888, Rutherford County, Tenn-married Anne Eliza Crockett June 3, 1844. She was born Jan. 6, 1825 in Rutherford County, died March 7, 1880 in Rutherford. She was the daughter of Julia Granville Smith and Fontaine Posey Crockett of Frankfort, Ky. of French Huguenot family Crochetagne- (descendents eligible for Huguenot Society of Va. I am a member as is Paul McGee James).

Issue: 1. Robert Granville Manson born 1859
 2. Anne Manson married James Owen
 3. Katherine (Kitty) Manson married Thomas Bass
 4. James Edward Manson married Mary Jane (Jennie) Jenkins

Dr. James Edward Manson was my father's grandfather, my great grand father and my grandchildren's great great grandfather. I remember many stories told about him and all show him to have been a Virginia gentleman and an educated man. According to family tradition and told me by Miss Isabella Washington, a cousin of my fathers and of mine, he had diversified occupation. He was a doctor who had younger men study under him (as did Dr. James J. Rucker who married the sister of my grandmother); a teacher while he was getting his medical degree; and later a horticulturist. He received his medical degree from the University of Penn. so we have always been told, but proof went out the end of a metal container in the form of gelatin when we tried to open the cylinder which

contained the old sheepskin. We need to document his degree at Harrisburg, Pa. (that's for future generations!!). We do know, however, that he purchased the practice of Dr. Wilkerson and also the Wilkerson turnpike which ended at his large two-story colonial home. It then became "Manson Pike", as it is today and the old home place still stands and is owned by a descendant of Dr. Manson-James Batey. It was Dr. Manson who put out the beautiful holly and magnolia trees which are now large and magnificent.

A story is told of how a Mr. Addison Willye, immigrant from Canada to Louisiana came by and asked to spend the night, and remained for 40 years. He was a nurseryman so he and Dr. Manson started a nursery in 1841 and planted every variety of fruit trees, flowering shrubs, and berries that would grow in that area. Isabella Washington said they put out boxwood all over Middle Tennessee, but said it was then called "boxbush" not "boxwood". I can remember avenues of lovely trees, grape arbors, and mazes of "box-bush" at all of the pretty old home places along the Manson Pike. Even now evidence remains that someone in that area was interested in landscaping.

Anne Eliza Crockett and Dr. James Edward Manson were married on June 3, 1844 in the garden of Anne Eliza's Aunt United America Smith and Uncle William Hunter Smith. He was her guardian after the death of her father, Fontaine Posey Crockett who as a young lieutenant went to join Andrew Jackson at New Orleans and stopped on Manson Pike, and met Anne Eliza's mother Julia Granville. After having many children, using up most of the resources given Julia Granville when she married him, he gently died still thinking he was a wealthy landowner and slave holder. (This is Isabella's version - - perhaps true since he was a heavy drinker and tubercular, we hear). William Hunter Smith and "Aunt Mec" left

Anne Eliza 200 acres, etc, etc, (Will Book 24, page 315, Rutherford County, Tenn. County Clerk's office).

Dr. Manson was a tall handsome man devoted to his Masonic brotherhood. A story was told me by one of his fraternity that during the Civil War a Company of Union soldiers came by the house and were preparing to burn it. The young captain would not accede to Dr. Manson's request that because of his wife's illness they pass them by, and were preparing to start the fire. At that moment Dr. Manson gave the Masonic distress signal and the young captain saluted and marched his soldiers away.

In the family today the name James Edward Manson remains down to the sixth generation and there still remains an intense interest in the Masonic faith. A picture is on the wall of the Masonic lodge in Murfreesboro, Tennessee of four generations of James Edward Mansons in their Knight Templar regalia carrying their swords. There are also other Templars and Shriners among direct descendants. The masonic sword of Dr. James Edward Manson was given by me to my son James Edward Manson James to be given later to his son, James Edward Manson James, Jr.

Today, May 26, 1972, I received an invitation to the graduation from medical school of James Edward Manson, the great, great grandson of the First Dr.. A great grandson, William Gresham Manson Jr. is also an M. D. in San Francisco, California. So tradition and training carry on.

James Edward Manson born June 18, 1853, Rutherford County, died Dec. 19, 1919 in Rutherford County, married Mary Jane (Jennie) Jenkins May 27, 1874. She was born Oct 25, 1854, Rutherford County, died Dec. 19, 1937-Winchester, Tennessee.

The second James Edward Manson, my grandfather who married Mary Jane (Jennie) Jenkins was always interested in fruit trees, grapes, real estate, insurance -- never farming -- although all of his life he lived on the farm. His wife had inherited property on the Manson Pike from her father, Nimrod Jenkins, and here "Papa" and "Mammy" Manson reared their ten children--seven of whom lived to be married and have children of their own.

Many stories are told of how "Papa" would "take-off" to Texas to see his relatives (Cousin Hal) and also to sell fruit trees. He just was too kind and gentle to rear all those boys and girls. "Mammy" was a dynamo--just barely five feet tall, beautiful and dainty, but quite quite forceful! In later years when I was in social welfare work and visited many of the old age negro families I would be told stories of how "Mammy Manson" and "Miss Jennie" acted and how "Miss Jennie" gave the orders on the large farm while "Mr. Manson" went to the office in town--driving his "Horse-n-buggy" down Manson Pike through the "tollgate" where a five cent fare had to be paid by everyone else, but he "owned" the road. Actually the road was owned and kept up by a group of landowners along the road.

My father, "Jim-Eddy", as his mother called him, was a dynamo also. He began in early life to trade. An early venture was in having Cousin Hal Manson, or someone in Texas ship a carload of Texas Ponies to him and he'd sell at a profit. This trading in everything--ponies, cattle, farm-

lands, timber, produce, and real estate took him at such a fast clip that in Florida during the big "boom" he died at the age of 49. Hypertension could be a family characteristic, so watch for it.

At the homeplace where Pop and Mammy started housekeeping they had everything that grandchildren would desire--even an "office" in the yard where we'd be allowed to play when weather was really bad and where I think I was actually born although my earliest recollection is on the porch of the pretty cottage (of about eight rooms) that daddy and mother built when I came into the world. It is still standing, but the constantly enlarged home of my grandparents has been torn down and an interstate road goes by. Still standing, however, is one of the old Jenkins homesteads with the beautiful columns and tree shaded lawns.

In the "Depression Years" everything was lost--except family solidarity. Property manipulation proved disastrous, but the family helped each other again and again and although some moved away and some passed away always there remained the feeling of "belonging" to each other. That's why I'm writing this to the youngsters - - to help them understand that the old saying "blood is thicker than water" is not trite. It is true.

THE JENKINS HOMES in RUTHERFORD COUNTY

by- Rosalind Manson James

A WILL probated in Greene County, Ohio, 11 November 1807 (quote)
 "Item 5, I give to my sons Hiram Jenkins and Nimrod Jenkins nineteen
 hundred and twenty acres of land in the State of Tennessee to be
 divided in the same manner that I directed it when I was there, ex-
 clusive of what they have had, to them and to their heirs and assigns
 forever. October 11, 1807" signed/Aaron Jenkins

This WILL of 1920 acres really started the fun! Where did Aaron
 who was only a private in John Guthray's Class Roll (c) First Battalion
 Washington County, Pa Militia during the Revolution, get this Tennessee
 property? Well, since 1960 there have been "cousins" from Los Angeles,
 California; Portsmouth, Ohio; Mocha Bend, Missouri; Harrisburg, Pa. and
 me here in Rutherford County searching for verification of that bequest.
 The court house has been besieged and volumes of records copied and all
 has been enjoyed.

I have found that we "Jenkinses" are numerous and inquisitive. We
 have documentation of purchase by the immigrants of property in Pa. and
 Virginia since 1752 so the "cousins" came to document the Tennessee
 property.

We took them to see "Marymont" and from that beautiful antebellum
 home which is still in the family and from this they "advertized" to all
 interested "cousins" around the country.

What they didn't know until they toured the county and copied wills
 and court records of the numerous law suits at the Court House just how
 the beautiful "Marymont" evolved.

The story is simple- For Revolutionary service Aaron II (Aaron I was from Frederick County, Virginia) received 640 acres for service and probably bought adjoining grants.

"In 1799 Aaron and his wife Rebecca Baldwin Jenkins and five of their children moved from Pettis County, Missouri settling on Stones River near Murfreesboro in Rutherford County. Rebecca died enroute 17 May 1799 and was buried at Crab Orchard, Kentucky. Aaron returned to Pennsylvania and married Charity Harlan Garwood, a Quakeress. During his absence, his sons killed and assisted in killing fifty-two bears, in which the country greatly abounded."

"In 1804, Aaron and Charity with their family-with the exception of sons, Hiram and Nimrod, returned to Ohio to land purchased in 1799 from Albert Gallatin."

It was Nimrod and Hiram who built the first Jenkins house on the northeast part of the "Marymont" property. It is still standing (just off the lane leading to the old Kingwood property).

The two large rooms were well built of brick with good features of deep window sills, large twelve paned windows, a chimney at each end, and a porch across the front with small round pillars.

A story is told in the family of how one night a recurrent dream disturbed Nimrod so he got up and went back to where there was a very deep spring and there buried their hoard of gold. When he returned to the house he found that thieves had ransacked the place.

This house was the beginning of a series of fine Jenkins homes in our community.

Nimrod never married but his brother Hiram I married Deborah Allison, (Davidson County Marriage Book), May 31, 1803. Since Rutherford County was created from Davidson County in 1803 they probably

Married here. He built his home on the Manson Pike (then not named perhaps) and there reared a large family. That house burned and the old graveyard was destroyed but I rescued two tall marble markers from Mr. Martindale's barn (later owned by Frank Womack) and had these placed in the Jenkins lot in Evergreen Cemetery. They marked the graves of Hiram Jenkins, Jr. who was born in Fayette County, Pennsylvania, February 21, 1780 and moved to Tennessee in the year 1797 and died 10 October 1857.

Nimrod Jenkins was united in marriage with
Jane W. Moore
of Rutherford Co., Jan 18, 1854
and closed his earthly career
Dec 13, 1855

"Blessed are the dead which
die in the Lord from henceforth
Yes saith the spirit they
may rest from their labor and
their works do follow them.

Nimrod I never married. He left a WILL which caused many lawsuits (see Rutherford County court records). But my ancestor Nimrod II (named for his uncle) married January 18, 1854-Jane Woodson Moore and they had two daughters, Mary Jane (Jenny) and Nimmie (named for her father who had died shortly before her birth). He had built a house, however, on the Jenkins property which he had inherited across the lane (later named Gresham Lane) from his father's place on the Manson Pike. After his death "Mittie," as she was called married Captain Amossa Gresham and

there they reared their large family. This home was used during the Battle of Stone's River as a hospital and was known as the "Gresham Place." This home remained in the family until in the early 1930's, when it was sold to Mr. Allen Ragland. Ownership changed several times, it burned, and now among the large oaks and maple trees is a modern brick home owned by Mr. Thomas Lane.

Another Jenkins home was almost directly across from the Gresham place and also the Frank Womack place (former Hiram Jenkins home, identical in architecture to the Nimrod Jenkins place) was Jennie Jenkins Manson's place. It was a typical Victorian home with tall windows across the front and a vestibule style entry. Ceilings were high, rooms were large and the "parlor" had a black marble mantel and black iron fireplace. Around the high walls were enlarged family photographs. This home also is gone, the interstate intersects the property and another land mark is gone.

A smaller, but sturdy brick house down the road toward the city of Murfreesboro still stands, a pretty Jenkins home. Hiram Jenkins II gave his daughter Alice Jenkins this home when she married Mr. H. H. Kerr, but when she died in 1870 he sold it. It reminds us however, that homes built sturdily, though storms and disasters came, they remain - as the first Jenkins two-room house on "Marymont" property, the Hiram or James Jenkins house on Manson Pike, and "Marymont" itself.

"Marymont" was built by Hiram Jenkins II (brother of Nimrod II) and his wife Nancy Puckett while he was guardian for the infant daughters of Nimrod, Jennie and Nimmie. This is on the other end of the Jenkins property and was the property inherited by Nimmie Jenkins who married Dr. James J. Rucker, and was named for their only surviving child, Mary. It was greatly embellished about the time of Mary's marriage to R. E. Donnell

by the addition of the Corinthian columns. All of the children of the family liked to visit there and ride Dr. Rucker's horses and see and lay around the deer park kept by Dr. Rucker for Mary. It still stands and is a reminder to us to protect and preserve.

May we always keep alive our interest in our Jenkins "cousins" and always appreciate what our forbears did to enrich our lives and the lives of our progeny.

RUTHERFORD COUNTY HISTORICAL SOCIETY

by - E. K. Johns

Rutherford County tried to begin a Historical Society on September 2, 1966 when Dr. Homer Pittard, County Historian, called a meeting at Middle Tennessee State University Arena Theater. Twenty-four persons attended the first meeting, and elected officers and discussed suggested projects. No other meetings were held by this group according to our records. However, the interest was there in our county for a Historical Society.

On December 17, 1970 Dr. Homer Pittard called another meeting in Room 208 at the Middle Tennessee State University Administration building. Eight people attended this meeting and the third Monday of each month was agreed on as a meeting night. Regular meetings, programs, dues and working officers got things rolling. Within a few months Mr. Henry Wray was elected president and by-laws were adopted. Dues were four dollars for charter members and five dollars for other members.

The County Court was asked to appoint an Archivist, and Mr. Henry Wray was chosen for this position. He soon began collecting historical material in a file cabinet and started publishing historical articles in the Daily News Journal, Sunday edition.

At the May 1972 meeting Mr. Wray was asked to act as editor for a publication similar to the one Williamson County was publishing. The first publication was issued in July 1973. Since that time they have been issued twice each year-in July and January. Mr. Henry Wray continued the job of assembling the publication for four more issues. He then moved to California and Ernest K. Johns was assigned this responsibility.

On May 20, 1973 a field trip was taken to the Blackman community led by Mr. Bob Baskin and Mr. Fred Brigance. Other field trips later were to Kittrell, Readyville, and to Smyrna, Lascassas, Stones River Battlefield- Murfreesboro, Cannonsburg, Triune and Tennessee State Museum. A school bus was used for the field trips.

In May 1974 the Historical Society published the 1840 Census of Rutherford County. This was the first extra publication issued for sale and not given out as part of the dues. Later in 1977, C. C. Henderson's History of Murfreesboro was reprinted. An Index to the first five publications, by Dottie Matheny was published in 1979. The Carlton Sims History of Rutherford County was reprinted in 1981. These extra publications also include the three volumes of cemetery records published jointly with the Sons of the American Revolution, in 1975. These publications have added considerably to our treasury.

At the December 1974 meeting the first commemorative plate was issued. The first plate featured the county courthouse. W. H. Westbrook was responsible for this project. The first order was rapidly sold and more plates were ordered. Later, a second plate with a different view of the old courthouse was issued. Then, a plate featuring Tennessee College was ordered. These plate sales contributed a nice addition to our treasury.

In November 1975 Mr. Bruce Plummer offered the Rutherford County Historical Society the right to sell a bank made as a replica of the courthouse. Then, in February 1976, a bicentennial medallion was proposed. The medallions cost ninety-seven and one-half cents and were sold for one dollar. These medallions sold very well and in June of 1976, another 1,000 were ordered. The second order had on the back the obelisk pictured instead of an eagle and sold for two dollars.

In January 1975, a motion was made and passed, that the Society incorporate. A charter was obtained from the State of Tennessee. In April By-laws were adopted by the Rutherford County Historical Society. Also, in June a post office box for the Society was obtained.

An obelisk at the geographical center of Tennessee was taken as a project by the Society on October 1975. Mr. Thomas Steagall donated the rock used in the construction. The obelisk was dedicated on June 26, 1976.

The Historical Society has also been active in recording oral history, microfilming and preserving old wills in the courthouse, purchasing new books and rebinding older historical books in Linebaugh Library, assisting in the Diorama at Cannonsburg, and other historical projects.

The Rutherford County Historical Society began meeting at Middle Tennessee University in the Administration building until December 1971. From February 1972 until May 1974 the Council Chambers of the Murfreesboro City Hall were used, and a place provided for the files assembled by the archivist. Then in July 1974, we moved to the new Murfreesboro Police building. The meetings were held in the court room. An office for the files and storage of extra publications was provided. The city police departments' need for the office space made it necessary to move to the city garage building in the fall of 1980. The building located on west main street has a nice meeting room and office space.

The Rutherford County Historical Society was modeled after Williamson County Historical Society when it was organized. The Society has been successful for the first ten years because of some of the following listed reasons:

1. The Society has been financially strong, due to extra publications, plates, medallions and banks

2. The officers and board members have been active. The officers are asked if they will serve before their election
3. Credit has been given to the ones responsible for their work
4. The County and City governments have been very cooperative
5. Members of the Society have not been required to attend meetings, or be qualified in any way. The only requirement for membership has been to pay their dues, and these cover the cost of the meeting notices and publications
6. The Society has been active in publication, preserving and distributing historical material on Rutherford County
7. The Historical Society has tried to cover all of Rutherford County's history, and not just Murfreesboro or certain families.
8. The Society has held monthly meetings which provide a continued effort on projects, and keep interest aroused.

The money he had in his pocket with his shot and bullets a short time after his arrival, which he accidentally lost, and was thereby "broken up." Mr. Sanders was a man of most powerful constitution, and his strength and endurance were probably not excelled by any man in Central Illinois. On the day of Uncle Joe Stevens' wedding, Mr. S., in a general trial of strength among those persons present, took a piece of lead, 75 pounds in weight, in each hand, and raised them on a level with his shoulders, and then passed them around straight in front until they touched each other. At one time he had been sic for some length of time, and when he had sufficiently recovered to walk to the blackberry patch, he gathered his hat full of blackberries, and then sat down and ate them all. He returned to the house and said, "Polly, I have eat a few blackberries and feel better."

He was known far and wide as a good rail-maker, and would go as far as 15 and 20 miles and make rails for parties at 25 cents per hundred, or 37½ cents in trade, which he regarded as a very liberal price. He was a man that possessed a great many peculiarities, a particular mention of which, would extend this sketch quite too far. He relates to-day, with pride, as one of his greatest achievements, the fact that he at one time in a wrestling match, threw down * Abe Lincoln, who had thrown the bully

of the county. Of Mr. Sanders' children -

ELLEN was born in 1823, and now resides in Kansas. JOHN, their second, died in the Mexican war. JAMES B. died in 1854. JANE, wife of Prestly Travis, resides in Christian county. PETER H., PEGGY, MATILDA, BETHANY and AMANDA, are dead. FRANK, the youngest child, was born in March, 1845, and married Annis Hollingsworth, with whom Uncle Jimmy now resides.

* NOTE: It will be remembered in this connection, that Mr. Lincoln, when he first came to Illinois, was a resident of Macon county, and he and Mr. Sanders were great cronies and friends. Uncle Jim says that they spent many Sundays together fishing in the Sangamon, and were often together at barnraisings, house-raisings, fox-chases and wolf-hunts. At these early gatherings, when Mr. Lincoln was an awkward gangling boy, he was often called upon, when the work was through, for a Jackson speech, and he seldom failed to respond. Mr. L.'s father was a Jackson Democrat, and his son grew up in that faith, and has made a great many Jackson speeches in this county. He afterwards changed his politics and became a Whig of the most pronounced type, which incensed his father no little. Mr. Lincoln commenced his law studies in this county under the following circumstances: He had gone to "Uncle Billy Warnick's" to see one of the girls; but in going, his shoes not being good, he got his feet frost-bitten, and was unable to return home. He remained there for a week or ten days under the medical treatment of Old Mrs. Warnick, and while so doing became greatly interested in reading the statutes and a few other stray volumes of law-books, which, no doubt, afterwards materially determined his course in adopting his profession. It was reported in the newspapers during the campaign of 1860, that Mr. Lincoln in his early day was a great rail maker; but Mr. Sanders says that while it is true that "Abe" did make some rails, yet they were few in number. Mr. Sanders also relates the circumstance by which Mr. L. ceased to be a resident of this county, which is this: A man by the name of Offit purchased a few hundred hogs, and Mr. Lincoln and his step-brother, John Johnson were employed to assist in driving the hogs to market at Beardstown. When they had disposed of the hogs they invested the money in groceries, which consisted, as Uncle Jim says, of "sod-corn," spun-cotton, sugar and coffee, powder and lead, etc., the greater part of which were brought back as far as Salem, where they started a grocery, and Mr. Lincoln was left in charge of the goods, to keep store. This was the last of Mr. Lincoln's personal history in connection with this county. Mr. Sanders' last interview with Lincoln was but a day or so before Lincoln's departure for Washington. As they were separating-which proved to be their last-Mr. Sanders said, "Now, Abe, don't do any wrong." Mr. Lincoln replied, "I will not, if I know it."

He sold his farm in Macon county in the fall of 1876, and removed to Girard, Kansas, prior to which he was the second settler, in point of arrival, residing in the county. From him we derived most of our information in reference to the Ward family and Ward settlement. He fixes the dates of the erection of the first houses in the county in the following order: 1st, William Downing's, south of Sangamon; 2d, Leonard Stevens', in Stevens' creek; 3d, Abraham Sprague's, just south of fair-ground; 4th, Hubble Sprague's, on the inside of the present fair-ground inclosure; 5th, William King's, a short distance south of the fair-grounds.
